## PROFESSIONAL SUMMARY

Working in Web Development with Creating Clean, Responsive, and User-Friendly Websites/Interfaces. Alongside coding, I've developed a keen interest in Content Creation—especially Video Shooting and Editing—to bring digital ideas to life in engaging formats. I understand the common creative and technical needs of clients and to deliver solutions that are both visually appealing and functionally effective.

## EDUCATION

### ● Pursuing Master of Computer Application

Aug 2024 - Aug 2026

*Gurugram University (Main Campus), Gurgaon*

- Currently pursuing coursework in software development, AI, and cloud computing.
- Learning advanced topics including web design, mobile app development, and databases such as MongoDB and MySQL.
- Building a good foundation in Java, React Js, DBMS, Python and computer security.

### ● Java Full-Stack Development Course

Nov 2022 - Jan 2024

*Ducat Institute, Gurgaon, Sec-14*

Specialized in advanced frontend design with React.js and Java backend development with MySQL database integration.

### ● Bachelor of Computer Application

Aug 2020 - Jun 2023

*B.M. College of Tech. & Mgmt., Farukhnagar, Gurgaon*

Completed Relevant coursework in Structural Design and Computer Management with Some Good Projects.

## WORK EXPERIENCE

### ● Frontend Developer & Creative Professional

Sept 2024 - April 2025

*Nurture Webtech (Start-up), Gurgaon*

- Joined as a frontend developer and expanded role to include content creation and graphic design as the company grew
- Actively participated in client pitching and business development, contributing to significant client acquisition
- Managed end-to-end frontend development, created engaging social media videos, and handled diverse Web projects
- Helped the company secure multiple new clients within the first 2 months through dedicated work and innovative solutions
- Worked independently with creative freedom, delivering high-quality results across multiple project domains

## KEY PROJECTS

### kaverijal.com

Currently developing a water bottle website using React technology with AI and focusing on creating a clean and user-responsive interface. Alongside development, I'll also design the product label to ensure a cohesive and visually appealing brand identity.

### stonepediaprojects.com

Contributed to frontend design, focusing on hero section and homepage using WordPress and custom HTML/CSS. Enhanced user interface design to improve first impressions and user engagement.

### thescancentre.in

Designed frontend interface for a diagnostic centre website using WordPress & Html Css. Researched healthcare platforms and created a minimalist, clean layout to improve user experience and booking clarity.

### anjalimakeovermantras.com

Built a bridal themed makeup studio website with strategic red color scheme With WordPress template. Applied design psychology to encourage package bookings over individual services, boosting client inquiries.

### College Website

Developed a responsive college website with Admin & Student portals. Built with HTML/CSS, upgraded to React.js later, and implemented backend using JSP & Servlets with MySQL database (CRUD operations).

### Personal Portfolio

Created a Personal portfolio website using React.js featuring dark/light mode, sticky stackable cards, and smooth navigation. Showcases web design skills and personal branding.

### Tic Tac Toe Game

Built an interactive two-player desktop game using Java and Swing. Demonstrates logic-building skills, GUI development, and ability to create engaging standalone applications.
